Chapter 1

Overview

Topics:

- [Highlights](#)

The scope of this document is to provide the release notes of Batch Geocoder API, with respect to a particular release version. It also includes the issues reported, open and solved within this release.

Highlights

Changes in this Batch Geocoder API release are improvements to the internal logging and monitoring functionality.

Chapter 2

Changes

Topics:

- [Functional and Behavioral Changes](#)
- [API Changes](#)
- [Resolved Issues](#)
- [Known Issues](#)
- [Limitations and Workarounds](#)

This section documents major changes to the release that may require users to change their applications and/or associated map data.

📖 **Note** For changes made in previous releases, see the related documents at <http://developer.here.com>. For more information on the latest version of the Batch Geocoder API such as authentication and platform migration details, see the Batch Geocoder API Developer's Guide.

Functional and Behavioral Changes

There are no added or changed functionalities, or changes in product behavior, in this release.

API Changes

There are no API changes in this release.

Removed

- None.

Modified

- None.

Resolved Issues

Changes for this release are improvements to the internal logging and monitoring functionality. For changes in the Geocoder backend software, see the respective release notes.

Known Issues

There are no known issues for this release. For known issues in the Geocoder backend software, see the respective release notes.

Limitations and Workarounds

There are no limitations and workarounds in this release.
