# Chapter 1

---

## Overview

---

### Topics:

- [Highlights](#)

The scope of this document is to provide the release notes for the Platform Data Extension API for a particular release version. It lists added and improved functionality as well as the issues resolved and known issues remaining in this release.

## Highlights

---

The following highlights give a short summary of the most important changes, added functionality and improvements:

- We introduced a limitation of 100 requests per hour and 1000 requests per calendar day in the CIT environment. For more information, see [Functional and Behavioral Changes](#) on page 9.
- We introduced a new layer EVCHARGING\_POI that contains charging stations for electric vehicles and static information like connector types, number of charging slots and opening hours.
- We introduced a new layer TRUCK\_POI that contains truck information for fuel stations and rest areas like HGV pumps, showers, number of truck parking places and opening hours.

# Chapter 2

---

## Changes

---

### Topics:

- [New Features](#)
- [Functional and Behavioral ...](#)
- [API Changes](#)
- [Resolved Issues](#)
- [Known Issues](#)
- [Limitations and Workaround...](#)

This section documents major changes to the release that may require the updating of affected applications.

📖 **Note:** For changes made in previous releases, see the related documents at <http://developer.here.com>.

## New Features

---

- New layer EVCHARGING\_POI that contains charging stations for electric vehicles and static information like connector types, number of charging slots and opening hours
- New layer TRUCK\_POI that contains truck information for fuel stations and rest areas like HGV pumps, showers, number of truck parking places and opening hours

## Functional and Behavioral Changes

---

The CIT environment allows only 100 requests per hour and 1000 requests per calendar day. For load tests on CIT, coordinate with your account executive or technical customer support.

## API Changes

---

### Added

- None.

### Changed

- Starting with the 2016Q3 map release, we are moving the `NAMES` column out of the `ROAD_GEOM_FCn` layers into separate `ROAD_NAME_FCn` layers. This might require customers to adapt their software.

### Removed

- None.

## Resolved Issues

---

There are no resolved issues in this release.

## Known Issues

---

There are no known unresolved issues in this release.

## Limitations and Workarounds

---

There are no limitations and workarounds in this release.
