Overview

This document provides a summary of important changes for this release. Apart from newly resolved issues and added or improved functionality, this document also includes information about known issues remaining in this release as well as any existing limitations and workarounds.

Map Data Version

Map data is currently updated in a bi-weekly cadence.

Highlights and New Features

The following highlights give a short summary of the most important changes, added functionality and improvements:

- Router now considers special bicycle attributes: Is a road accessible for bicycles or can bicycles travel against one way direction?
- Map layer LINK_ATTRIBUTES2 now contains special bicycle attributes: Is a road accessible for bicycles? Can bicycles travel against one way direction? Is the road surface suitable for bicycles? Does the road have a separate bicycle path?
- Routing now considers changing vehicle weight/height/length/trailers... during a journey: Specify capacity deltas at each waypoint.
- Routing now considers preferred routes for trucks, for certain weight, dangerous goods or bicycles. Parameter "ignorePreferredRoutes" switches it off.
- Router now supports vehicleType "tractorTruck".
- Custom routing tells whether customized road geometry was considered during routing (metainfo - overlays: true)
- Routing response can contains baseTime and trafficTime per leg
- Routing with optional/unordered waypoints: Can now handle waypoints that are just "visit" and not a pick-drop pairs.

Changes

This section documents major changes to the release that may require the updating of affected applications.

Functional and Behavioral Changes

The following table contains descriptions of added or changed functionality and changes in product behavior.

TICKET NUMBER	DESCRIPTION
---------------	-------------

API Changes

The sections below list APIs that were added, changed, or removed.

Added

- No additions

Changed

- No changes

Removed

- No removals

Known Issues

There are no known unresolved issues in this release.

The following table lists issues known to be present in the current release.

ISSUE ID	DESCRIPTION
-	No known issues

Resolved Issues

There are no resolved issues in this release.

The following table summarizes issues resolved in the current release.

ISSUE ID	DESCRIPTION
-	No resolved issues

Limitations and Workarounds

This section lists known limitations and, if available, related workarounds in the current release.

TICKET NUMBER	LIMITATION	WORKAROUND
-	No Limitations	-
